TWO CENTS

WOULD CUT UP AUDITORIUM

More Rooms Needed for Local Public Schools

BUILDINGS PROPOSED

Board of Education Face to Face With an Imperative Need, and Various Solutions of the Problem Are Being Considered.

The people of Salem and the board of education is facing the necessity of providing very soon for more school accommodations, especially in the lower grades, where conditions will have to be relieved soon. The committee appointed by the board a month ago to secure a room temporarily has been unable to do so as yet, there being a scarcity of suitable places. The board at the meeting last evening discussed the matter at length, and the suggestion was made that the situation might be relieved by the securing of assistant teachers in the first grades. This, however, did not meet with much approval, it it possible to avoid it, although the plan has been tried at Alliance, where it is said to work well.

In connection with the need of new school accommodations, the suggestion has been made that the room now taken up with the auditorium in the present high school building might profitably be cut up into school rooms and furnish four or five additional rooms. This would, of course, do away with the present use of the auditorium, but some members of the board are known to be almost ready to accept the situation. The argument is made that the auditorium is an expense, as when it is rented the price is made so nominal that by the time the heating, lighting and janitor's fees are provided for there is no profit left. In addition, the auditorium is not suitable for use by the school as an assembly room, so that the main reason for its being placed in the building has proved to be no advantage from that standpoint. There is room for at least four good-sized rooms, which could be heated for a small part of what it now takes to heat the auditorium.

In fact, it takes almost as much to heat the auditorium as it takes to heat all the rest of the Fourth street building.

Another suggestion has been made, that a building or an addition to the present Columbia street building be erected on the lot south of the present one. It is argued that this would be central as to population, and there is ample room on the lot for a separate building.

Still another plan is proposed, to erect a separate building on the Fourth street site for the exclusive use of the high school, and place an auditorium in that, arranged on the ground floor, and in a shape that will be more satisfactory for use. In connection with this suggestion it was taken into consideration that within a comparatively few years it will probably be desirable to provide for a course of manuel training, and also that some provisions ought to be made for gymnastic work. These branches are taking up the consideration more and more of the school boards in all parts of the country, and must, sooner or later, be reckoned with.

TRACK LAYING WAS BEGUN

Lisbon, Nov. 6.—Track-laying on the Y. & O. R. was started here Monday afternoon under the direction of E. F. Chapman of Cleveland, superintendent of construction, who will have charge of placing the electrical appliances as well. Mr. Chapman expects to have completed today the 1,500 feet of track which will be laid here at present, to permit the company to unload structural iron for bridges and other material as it arrives on its own ground. Further track-laying will be deferred until the concrete bridges in and north of town are completed.

H. V. George and Charles Springer drove the first spike Monday afternoon, a silver-plated one, which was afterward drawn and will be preserved as a relic by Mr. Springer.

J. R. Vernon made a business trip to Columbus Tuesday.

Young Man Killed; Fell From Wagon

While returning to his farm in the neighborhood of Greenford, after an afternoon's visit to this city, Frank Goodman, aged about 23, met an untimely death by falling from his farm wagon about 5:30 Monday evening. The accident occurred about 4½ miles north of Salem on the Canfield road, in front of the home of the young man's uncle, Eli Goodman. The details of the accident will probably never be known, as no one witnessed it, and it was fully ten minutes later when Garfield Odell, driving along the road, discovered Goodman lying in the roadway, with the rear wheel of his heavy farm wagon resting on his head. He was dead when discovered.

Goodman lived with his widowed mother, Mrs. Elizabeth Goodman, on a farm about 2½ miles northwest of Greenford. He had been in Salem Monday forenoon delivering some farm products, and started home late in the afternoon. It is supposed that he was sitting on a barrel of salt which he had purchased, and in some manner was jarred off the wagon, falling under the wheels. The lines were about his body, and his team had, apparently, stopped almost as soon as he fell. It is not known positively whether the fall killed him or whether the wheel, which rested on his throat, strangled him.

The body was taken at once to the home of his uncle, and later to his home. The funeral will be held at 10 o'clock Thursday morning at the Ridge church in the Greenford neighborhood, with burial in the Goodman cemetery.

The young man was an only child. His father, Jacob Goodman, died something over a year ago.

MILKMEN DECLARE THEY NEED REST DAY

A move is being inaugurated by some of the dairies delivering milk in Salem at retail looking toward the non-delivery of that commodity on Sunday, at least during the winter season. Last Sunday some of the wagons did not make their rounds, and it is understood that others will try the plan next Sunday. Those who tried it last Sunday say they had almost no opposition from their customers, and it is believed that arrangements can be made that will be entirely satisfactory.

Those who are urging the new plan state that there are a number of places in this vicinity where the milk men do not deliver on Sunday, with the exception of a few places where there are young babies, or sickness, or some special reason. Among these places are Sebring, Leetonia, Columbiana, New Waterford, and East Liverpool. In some of these places the wagons do not run on Sunday even in the summer.

A number of years ago it was customary for milk wagons in Salem to make two deliveries on Sunday and all other days during the summer, but this has been done away with for some years, and no one is apparently inconvenienced. The non-delivery on Sunday is meeting with the approbation of many, who realize that milkmen, as well as other workmen, are entitled to rest on Sunday, and it is thought that the movement may become general.

WHITACRE LANGUISHES

Amos Whitacre, a Salem young man who is alleged to have made way with over $200 in money and a $45 gold watch which was taken from a fellow boarder at Alliance a few weeks ago, now languishes in the Stark county jail at Canton in default of $1,000 bail, having been bound over in Mayor McConnell's court at Alliance Monday. Whitacre, it will be remembered, disappeared from Alliance, where he had been working, simultaneously with the watch and money, and was later heard from in Chicago.

The Salem police, who were notified of the case and had been keeping an eye on it, learned last week that Whitacre had returned to these parts and located him at Wellsville. Chief Howell of the Alliance force was notified by Chief Turner of this city, and on Saturday went to Wellsville and arrested Whitacre, taking him back to Alliance.

The stolen property, $201 in money and the watch, belonged to Edgar Sage, an Alliance machinist, who had placed it in a trunk in his room. When arraigned Monday at Alliance Whitacre waived a preliminary hearing and was bound over to await the grand jury's action.

Slug Was Not Cause of Death.

Drs. Cruikshank and Anderson held an autopsy over the remains of Joseph McGaffick, a 5 year-old lad who died Monday morning, supposedly as the result of having swallowed a slot machine slug about two months ago. The autopsy developed no trace of the slug. An affliction of the bowels was discovered, however, which was responsible for the death.

The funeral will be held at 2 o'clock Wednesday afternoon from the home of J. P. Boals, 36 Sharp street, [illegible] burial in Hope cemetery.

A LAD OF 16 CHARGED WITH STEALING HORSE

John Byler, a 16-year-old lad living at the Blocks, just norteast of town, was arrested by local officers Monday evening, and is in the lockup charged with having unhitched and driven away a horse. The rig belonged to Archie Orr, who had driven uptown to deliver a basket of clothes to a washerwoman on the north side of town. He had hitched the rig on Dry street, near Charles Loop's cafe, and when he returned shortly thereafter found that it was gone.

Thinking that some members of his family might have been along and driven it home, he went home, but the family knew nothing of it. All turned out to assist in the search, and the local police were notified. After a long search Orr's daughter saw two or three youngsters driving the rig along the street, and summoning an officer halted them.

Confronted by Officer Miller young Bylre admitted that he had unhitched the rig and driven it off. The basket of clothes, however, were missing, and upon being pressed the lad admitted that he had first driven home and left the clothes there, later returning to town and inviting his companions to enjoy a drive.

Officer Miller and the boy drove out to the Blocks, where the basket of clothes was recovered. Returning to town the outfit was returned to the owner, and the lad locked up.

Orr preferred a charge of horse stealing against the lad, and under this he is held. There are indications that the youngster is weak-minded.

RAISED A DISTURBANCE

John Davis, a young man, was taken into custody at the opera house during the performance Monday evening. He later secured his release by posting a forfeit of $5 for his appearance Tuesday afternoon.

Davis is alleged to have been intoxicated, and raised a disturbance in the balcony. He was ordered to leave the house. At the door he stopped and was ordered by Head Usher Sharpnack to proceed. He then turned and struck Sharpnack a savage blow on the nose. He was then forcibly ejected, and at the request of Sharpnack placed under arrest by Officer Gottschalk.

To Opens Its 1906-7 Season.

The Pastors' Aid Society of the First Baptist church will open its season with a session next Monday evening, the program for the winter having been laid out. A special feature this season will be that the wives and ladies of members will assemble at some home on the night of the meetings, and after the session the gentlement will adjourn to the home, where the ladies will serve refreshments.

NATION WAITS THE RETURNS

Elections on in Maay States and Here Today

A GOOD VOTE IN SALEM

Local Interest Centers in the Congressional Fight—The News Bulletins Will Announce Results Everywhere—Prohibitionits' Claims.

Though devoid of any absolute local interest or contest, the general, state, county and district election today is attracting much attention locally, and every indication is for a very good vote in Salem, considering the fact that it is an "off" year and that there is no local fight on. The polls opened at 5:30 a. m. and will close at that hour this evening.

Interest centers on the congressional fight, with the contest for the prosecuting attorneyship pressing it close for recognition. Welty workers were out in force all day, and every effort was made by both sides to get out the full vote.

At 3:15 this afternoon the total vote in Salem was approximately 1,400, indicating a heavy vote.

A feature in this county which will attract some interest is the outcome in Madison and Butler townships, the Prohibitionists claiming that they will carry both these townships. This party has never before carried a township in this county, and the leaders claim that they will show results.

As in the past The News will have bulletin service tonight for returns from the city, county, district, state and the country at large. Important returns will be given through a megaphone from an upper window, and all bulletins will be posted on the front window. The use of local and long distance telephones and a special telegraph wire from Cleveland have been obtained that prompt and accurate returns may be assured.

State House Deserted.

Columbus, Nov. 6.—The state house is deserted today, the attaches having gone home to vote. Open house will be kept at the governor's office tonight for those who want to hear the returns. Governor Harris will get the election news at his home in Eaton.

Election Day Quiet.

Lisbon, Nov. 6.—Although the voting here has been rather light this forenoon, the ideal weather conditions would seem to favor a large vote this afternoon, from the farming community in particular.

The election is passing off very quietly at the county seat.

Teddy Casts His Ballot.

Oyster Bay, Nov. 6.—President Theodore Roosevelt arrived here at 9:10 this morning, cast his ballot and departed immediately for Washington.

Big Vote in New York.

New York, Nov. 6.—There was a record-breaking vote polled here this morning. Scores of people were arrested for illegal voting.

Massillon Tigers in Pittsburg.

The "Massillon Special" went through the city Tuesday morning, bearing the Massillon Tigers football team on their way to Pittsburg, where they played the Pittsburg Lyceums in the afternoon. The train carried four coaches, which were decorated with the Massillon colors and pennants.

GEORGE H. WATKINS

Republican Candidate for Member of Board of Public Works of Ohio.

WILL APPEAL THE TATE AND TAYLOR ARSON CASE

The cases of Clarence Tate and Thomas Taylor, the Hanoverton men convicted of arson for firing a strawstack at the Ritz farm at Newgarden several months ago, will be appealed to the state supreme court by Attorney L. P. Metzger, who has defended the two men, who are under sentence to serve three and one year respectively.

Last week the circuit court affirmed the common pleas court, which had refused to grant them a new trial. Attorney Metzger, who made an able argument to the circuit court, believes that he can yet get a reversal, and will this week file application in the Ohio supreme court for permission to file a petition in error.

ALLEGED ASSAILANT OF AUTOIST ARRESTED

John W. Stouffer of near North Georgetown, against whom L. A. Callahan on Monday filed a charge of malicious destruction of property in mayor's court, came into town Monday night about 7 o'clock, entered a plea of not guilty to the charge, and was released under $300 bond for his appearance next Friday at 1 o'clock for hearing. The bond was signed by the young man's father, L. W. Stouffer.

Chief Turner drove to North Georgetown Monday afternoon to arrest Stouffer, but returned without him, both the lad and his father promising to drive to town and surrender the young man. They came shortly after the chief arrived. Young Stouffer would not discuss his alleged offense in any way, and would not indicate as to whether he had any part in it or not.

Judge Laubie an Entertainer.

Members of Trescott post No. 10, G. A. R., were well entertained at their regular meeting Monday evening by Judge P. A. Lauble of the circuit bench, being home to vote, with some very interesting and humorous reminiscences of the old war days. At the conclusion of his address, by special request from the comrades present, Judge Laubie delighted his hearers by singing "John Anderson, My Jo John!"

WHAT'S THE Y. & O. R. COMPANY'S NEXT MOVE?

"What will be the next move by the Y. & O. R. company?" is the leading question among Salem people following the injunction decision by Judge Harter at Canton Monday, enjoining the company from building its line up Broadway in Salem. Local representatives of the company do not answer the question as yet, but doggedly assert that the line will come up Broadway.

The case has not yet been appealed to the circuit court, but probably will be. The sweeping decision by Judge Harter, however, holding that the company, chartered as a general railroad company, has no franchise right in the street, appears to establish the fact that the company cannot come up the thoroughfare without condemning the street, and paying the property holders commensurate damages. This would be a costly proceeding. Another solution of the problem would be the purchase of the franchise rights and system of the Salem Electric Railway Co., and the reconstruction of its line up Depot street, and there are many predictions that this will be the final outcome of the case.

Attorney L. P. Metzger, attorney for the Y. & O. R. company, has so far declined to make any statement as to his client's plans. He was in Cleveland today, presumably in conference with the officials of the company and their legal corps over the decision of Judge Harter.

BOARD OF EDUCATION DISPOSED OF DETAILS

The board of education met in regular monthly session Monday evening at the office in the Fourth street building, all members being present except President Robert V. Hampson, who is ill. In his absence S. B. Richards was selected to serve in his place.

The bid of the Allison Coal Co., which has the contract for furnishing coal for the schools the present year, was reported as all right, and was accepted. Reports was made by the Prospect street building committee that a contract had been entered into with E. I. Kille for the finishing of the southwest room in the building for use, and that the work was already under way. The contract for the finishing amounted to $350, and there will be some additional expense.

The matter of paying the teachers in the Salem schools for their time in attending the recent county teachers' institute was taken up, and the bill amounting to $300.74 ordered paid.

On recommendation of Supt. Johnson the board elected Miss Nellie Platt of Darby, Mont., as a teacher in the schools. She will be assigned to the Prospect street building as soon as the new room is ready for occupancy. Miss Platt formerly taught here, but resigned last summer to accept a position in Montana, but is now desirous of returning to Salem. She was employed at the rate of $550 a year for the rest of the school year.

The Fidelity and Casualty Co. reported that the boiler at the Columbia street school had been inspected and found all right. The committee in charge of securing a room temporarily to accommodate an additional first grade reported that so far no suitable place had been secured, and the committee was continued.

FREE TICKETS TO NEWSIES

The Bennett-Moulton stock company opened a week's engagement at the Grand Monday night. A creditable performance was given, which was greeted by a crowded house. Good specialties were introduced between acts, and the company as a whole is one of the best that has ever appeared in this city. Tonight "Ezra Dexter" will be presented.

Next Thursday will be Newsboys' night, when "The Fatal Coin" will be the bill. On that night newsboys of the city will be given free tickets, good seats will be reserved for them, and they will be looked after in every way possible that they may have an enjoyable evening.

A Slight Fire.

A slight fire at the home of H. W. Kesselmire, 202 East High street, about 5:30 Monday evening did damage to the amount of about $75. Prompt action by members of the family prevented a bad blaze. The fire occurred in an upstairs bedroom caused by a flying match head.

EVERY MOVE IS THUS FAR LEGAL

The Safety Board So Informed Monday Evening

AGREED AS TO WAGONS

Decided to Recommend Their Purchase to Council, but Have Not Yet Agreed as to the Fire Alarm Signal System.

Members Kay and Shoe of the public safety board held a conference at City hall Monday evening regarding the advisability of letting a contract for a new fire alarm and patrol system. Clerk Lentz and Fire Chief Bolen attended the conference.

While no line of action was finally mapped out the board members, in a general way, decided it to be their duty to recommend to city council the purchase of certain wagons and an alarm system, and ask council to provide the money therefor. The members could not agree on what system should be recommended, but were agreed to recommend the purchase of the Weir patrol wagon and the American La France company's combination chemical and hose wagon. After considering in detail the matter, Member Kay asked for more time to think over and go over the bids on the various systems, and agreed to meet again Wednesday night. It is hoped by the members that they will be able to frame up a recommendation and get it to council at an adjourned session this week.

Member Shoe favors recommending that the bid of the Gamewell Fire Alarm and Telegraph Co. on system No. 2, which incorporates 15 positive non-interference boxes and 21 Sector boxes and a complete system. The Gamewell's cash bid on this system is $5,532, $6 lower than the bid of the Signalphone company. A majority of those present at the meeting favored asking council to provide money whereby whatever system is purchased be paid for in cash.

Mr. Kay, early in the conference, raised the question as to the legality and regularity of the whole proceeding. A consultation with City Solicitor Smith brought out an opinion from him that so far every move made by the board had been perfectly legal and correct, though the board cannot award any contract until council has approved and the money has been provided.

During the meeting it developed that Clerk Lentz had received a letter from R. D. Heaton, present owner of the local patrol and fire system, in which he proposed, for a rental of $220 per month, to equip a system in accord with the specifications put out by the board, and furnish the system for ten years, the city to have the option of buying the outfit at an appraised figure during the period named. The letter was dated November 5, and will probably not be considered, as it does not comply with the requirements of the board as outlined in specifications, and came in several days after the opening of bids.

The safety board will have on hand at the end of the year about $5,000, which may be re-apportioned and applied to the payment for the new system.

STRENGTHENING TEAM

Manager Scullion of the first football team has succeeded in materially strengthening his lineup for the remainder of the season, and expects some good games between this and the close of the season. He has signed Shoemaker and Edwards, who have been playing at guard and tackle respectively with the South Sides, a snappy little team which has made good so far this year. They will be found in the first team lineup hereafter.

Oliver Calladine will hereafter be found at quarter, and Will Sprowl has been selected as captain of the team, and is putting his men through a rigid course of sprouts, with nightly practice.

The team is looking forward with much interest to their game at Ellwood City, Pa., on November 24, when the team will go to the Pennsylvania town to meet the strong Ellwood City bunch. The Pennsylvania team averages 175 pounds, and the locals expect to weigh in at about [illegible]

LOUIS H. BRUSH.

Sworn to and subscribed in my presence this 3d day of November, 1906. RALPH W. CAMPBELL, Notary Public.

Young men or boys who disturb the peace at any public gathering are entitled to little consideration, but especially is this true when they voluntarily start trouble where a large audience is assembled, as occurred at the Grand last evening. There the disturbance reached the point of a fight before quelled and for a moment the danger of a panic was imminent. The word "fight" is so easily mistaken for "fire," and the thoughtless are always so ready to cry out at such times, that the mere matter of disturbance or annoyance becomes secondary to the far greater danger of a stampeded audience. It is usually argued in extenuation that, as last night, those who create violent disturbances at public gatherings are under the influence of intoxicants, but that should be no excuse. A few salty fines, a workhouse sentence or two and a little more firmness on the part of the police force would break up the occasional bad order in the balcony at the Grand and at any other local public gathering where it occurs.

In prosperous times few people realize [illegible] depend upon a con-

gressional election such as it now on today throughout the United States. Local and state contests are important, of course, but they cannot possibly affect the people so directly as the choice of national representatives. It is difficult to comprehend how much actual power to make or destroy is entrusted by the people in the hands of the men we send to Washington. Only when they make some disastrous national blunder, as happened when congress enacted the Wilson bill, do the people fully realize what congress if not wisely constituted and sanely led may do. Today the nation is selecting a new house of representatives and tonight's returns will show what has been the verdict. The result is, therefore, of the greatest importance.

In some instances, no doubt, farmers and residents of villages have just cause for a feeling of indignation toward automobilists who drive their machines recklessly along public highways, but the proper way to correct this evil when it appears is to invoke the aid of the law, or if that is insufficient to demand of the legislature more stringent regulations. At all events nothing is to be gained by exhibitions of indiscriminate hatred toward all automobilists.

Everything, insist the weather wise, points to a cold winter. The crows, which usually remain north until late in the fall if a mild winter is ahead, have all gone south, and this is accepted as one of the many "sure" signs. Coal and other fuel men have thus far filed no objection.

Hughes stock in New York is rising rapidly and the contemptible Hearst is preparing to set up a howl that the election was stolen—if he is defeated.

Loose Rail Caused Accident.

Atlantic City, N. J., Nov. 5.—Coroner Gaskill announces that experts in his employ had decided that a loose rail caused the accident on the Pennsylvania railroad at the Thoroughfare draw last Sunday, in which more than 50 persons lost their lives. The details of their discovery were not made public. The inquest will be continued today. The divers were not at work and grapplers who did work failed to find the body of the missing boy, Joseph McElroy.

POLITICAL POINTS

Get out the vote, is the real rule for Republicans.

* * *

Roosevelt is watching Ohio. What will the election show him here?

* * *

Democratic gains and Republican losses will alike call a halt on business activity.

* * *

Starting at Springfield, every city in Ohio is to have a Hearst Independence league, organized with his money by his hired men. Ohio Democrats must fight it from the first or succumb.

* * *

Roosevelt voters remember, to help him you must vote for his party. The Republican party is Roosevelt's, and the Republican ticket is second on the Ohio official ballot, not first, this year. Take care.

* * *

One lone vote in the St. Louis Democratic city convention to indorse Governor Folk, with all the rest against him, shows the Missouri man how quickly Democracy gets tired of good behavior.

* * *

Walking hand in hand with Pattison's spirit is Candidate Hoskins, according to his own speech accepting the nomination of his party convention after it had repudiated Pattison's recommendation of county local option.

* * *

With primary election and bank reform bills, both killed by the Democratic bosses in the Democratic senate, both having been passed by the Republican house, the responsibility rests where it belongs. Can such deceivers fool voters further?

* * *

Practically none but Republicans get Gompers' black mark in his pretended war for the good of the labor cause in politics. Seeing this, wage-earners who believe in Republicanism and prosperity refuse to be duped by the Gompers scheme.

* * *

Horse racing on Sunday, almost open gamblin, scarcely restricted liquor selling, are accredited to Auglaize county during the prosecuting attorneyship of Candidate Hoskins, self-praised as the one real temperance man among the Ohio Democrats.

* * *

Unexpected visits to state institutions by Governor Harris will strengthen his plans for requiring trustees to be responsible for the condition of their different institutions on the basis of merit alone. So good a purpose should have strong public support at the polls.

* * *

Since a Democrat (Senator Williams of Cuyahoga, president pro tem.) will now name the senate members, should the Democrats now pass the house Republican resolution they once rejected, for a fair and legal investigation of Cincinnati, what last little chance have they left for a kick?

* * *

Cuyahoga county's treasurer, Madigan, also Cleveland city auditor, holding both offices by Boss Johnson's favor, is bound to hang onto his scheme to collect the fall taxes before Dec. 20, because it means $30,000 more in fees for him. Such is one of the choice fruits of Johnsonism and Democratic reform.

* * *

"Not one of these men would repudiate that platform if he could, not one of them would dare to do it if he wanted to," says the Democratic Sandusky Journal about the Democratic state candidates. This is the platform that distinctly repudiated "Pattison's principles" as to county local option, yet Hoskins, the temperance pretender, stands by it.

* * *

W. C. Culkins, the Democratic reform auditor of Cincinnati, was Speaker Thompson's adviser, as a lifelong friend, and agreed with the speaker that the latter could not honorably name the members of the Cincinnati investigating committee before he was empowered to do so. This angered the Garber Democrats, because Thompson refused to let them boss him, and is a reason for their false charge that Thompson tried to smother the Cincinnati investigation.

* * *

Scandalmongers and mischief makers are always busy about state institutions. In most cases their talebearing is no more truthful than it was in the case of the institution for the deaf and dumb. A most searching bipartisan investigation just finished not only vindicates Superintendent Jones from all the charges of mismanagement and immorality but heartily commends his conduct of the institution. Mr. McFadden, the Democrat, joins with Mr. Platt, the Republican member of the board of state charities, in making the report.

BABY'S TORTURING SKIN HUMOR

Ears Looked as if They Would Drop Off—Body Entirely Covered—Face Mass of Sores—Three Doctors Could Not Cure—Child Grew Worse—Face and Body Now Clear

CURED BY CUTICURA IN TWO WEEKS FOR 75c.

Mrs. George J. Steese, of 701 Coburn St., Akron, Ohio, tells in the following letter of another of those remarkable cures of torturing, disfiguring skin humors daily made by Cuticura Soap, assisted by Cuticura Ointment, after physicians, and all else had failed: "I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without results. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents, which is all it cost us to cure our baby, after spending many dollars on doctors and medicines without any benefit whatever."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), may be had of all druggists. A single set often cures the most distressing cases, when all other remedies, and even the best physicians fail. C. P. Rhodes, a compositor in the government printing office at Washington, and "an active member of the typographical union for twenty years," having been expelled from the union for refusing to pay dues to be used against the Republican party, expresses in public print pretty plainly his opinion of such tyranny. He says in regard to the labor leaders engaged in the proceedings "that I have the right, as an American citizen, to denounce them as political demagogues."

* * *

If the Democrats really favor the reforms to which they have pledged themselves in their platform, why don't they exert themselves and line up their members of the general assembly? The same senators and representatives who served last winter will sit again next session, whenever held. The Republican members repeatedly demonstrated by their vote that they are favorable to clean and wholesome legislation. The only stumbling block has been the Democratic majority in the senate. Right there is the opportunity for a real work of reform, and one which the Democrats alone can handle.

BATTLE OF BALLOTS

Being Waged More or Less Merrily in Forty-Two States of Union.

CONGRESS PARAMOUNT ISSUE

Both Republicans and Democrats Claim They Will Organize Next Congress—New Yorkers Employed in Washington Going Home to Vote.

Washington, Nov. 6.—The campaign in 42 states for the election of the sixtieth congress passes into history. Besides the congressional balloting, 23 states will elect governors. Arizona and New Mexico will accept or reject a jointure in statehood. Oklahoma and the Indian Territory will adopt a state constitution and 20 states will choose legislatures which, in turn, will elect United States senators.

The United States weather bureau sees fair weather for election day throughout the east, middle west and south, with moderate temperature; rain in Minnesota and the Dakotas, and cold and snow in Wyoming, Montana and the interior of Washington and Oregon.

President Roosevelt, who yearly sets the example of good citizenship by going from Washington to Oyster Bay to cast his vote, left the White House on this pilgrimage at midnight. He will return today and arrangements have been made as usual to keep him posted at the White House on the election returns.

Lack of Passes a Factor.

The president's cabinet is still in the field. Most of the cabinet officers have done strenuous work and several of them will find it convenient to be at their home to vote. From all reports, however, fewer voters have gone home from Washington this year to vote than in any congressional year for a decade. This is owing largely to the fact that free transportation has been cut off and that election rates on the railroads are higher than they have been before. The single exception to this rule is the case of New York voters. Considering the expense, a remarkably large number of Empire state voters resident in Washington are going home to vote.

The congressional predictions by the Republican and Democratic congressional committees with headquarters respectively in New York and Washington, remain the same as the "finals" announced a few days ago. The Re-

IMPERISHABLE FACTS — WHO WOULD RISK RETURN?

The Van Wert Bulletin, in advising the voters of the Fifth district to support the Republican nominee for congress as against his Democratic opponent, uses the following pertinent argument:

"The last experience the American people had with free trade is an object lesson. It was sandwiched between two eras of prosperity, under protection. Under such conditions it is proof of what free trade and protection will do for the country when given full swing. Under the Harrison administration the country was prosperous, in fact never before, up to that time, had it enjoyed such unbounded prosperity. Cleveland was elected. Under his direction and dictation the free trade Wilson bill was passed, and prosperity went out like a candle under a bushel. Under the operation of free trade the government borrowed money to pay expenses. Everybody but the money-lender borrowed money. The farmer borrowed money to pay his taxes. Business was at a standstill and labor was idle. McKinley was elected, the Dingley tariff bill was passed, prosperity returned, and under the action of the tariff measure the country has enjoyed the greatest prosperity in its history.

"Here stands the record of the measures side by side. Under free trade the workingman was idle and could not find employment at any price, because there was nothing to do. Under protection every man has employment, and there are not workingmen enough to fill the demand. The farmer receives good pay for his crops, has money to deposit in the bank, and his land has thribbled in price. The industrial condition of the country is the wonder and admiration of the world.

"Does any sane man want to reenact the Cleveland policy of free trade after such an experience? That is what Bryan is coming here to advocate and that is what Tim Ansberry will vote for if he is elected to a seat in congress.

"Stand pat. Let do well alone. Vote for Hon. W. W. Campbell, who will not vote in congress for a change of the tariff law. Conditions are right as they are and Mr. Campbell will not vote to change them.

"Voter, you can not afford to take the risk of a change."

ARMS TO SHOOT PICKETS

Are Furnished to Strikebreakers by Cleveland Publisher.

Cleveland, Nov. 6.—John A. Penton, president of the Penton Publishing company of this city, has declared war on the pickets of the typographical union who had been stationed near his establishment. Penton bought a supply of 38-calibre revolvers and gave them to his employes, with instructions to use them if they were molested by the pickets.

This action by Penton was prefaced with a letter to the mayor in which he declared his purpose to protect his men against assault and to continue doing business and that he intended to arm his men so that they could protect themselves. Penton also wrote letters to Chief of Police Kohler and the judges of the police court telling them of his intention to arm his men. Penton declares that his non-union employes have been repeatedly insulted and assaulted by the pickets.

MOB TAKES VENGEANCE

Waylay Bailiff and Negro Prisoner and Kill Latter.

Wrightsville, Ga., Nov. 6.—Bailiff J. L. Hightower sought to arrest a negro, William Newsome, seven miles from Wrightsville. Two young white men, John Mason and Ernest Carter, were assisting Hightower. Hightower called for assistance. Carter ran into the house and the negro shot at him, killing him instantly. Then Hightower fired upon the negro with a pistol, wounding him twice. The negro was then captured.

Hightower and Mason started with the negro for Wrightsville. At Summers bridge, over Choopee river, about 30 armed and disguised men halted them and shot the negro to death. The coroners jury returned a verdict that the negro came to his death by gunshot wounds inflicted by unknown persons.

Four Burned by Powder.

Gloucester, O., Nov. 6.—Four men were badly burned by an explosion at Sunday Creek mine. The accident was caused by a motor running into a keg of powder, which had been dropped in the entry. The injured are: Charles Daugherty, John Roberts, Lewis Gatchel. The name of the fourth man injured has not been learned.

Ohio Depew Dies at 102 Years.

Findlay, O., Nov. 6.—Mrs. Anna Depew, one of the oldest residents of Ohio, is dead at her home in Wharton. Her age was 102 years, and she has been a resident of Wyandotte county for the last half century, removing there from New York state. She was distantly related to Senator Depew.

Mine Boss Killed in Quarrel.

Barbersville, W. Va., Nov. 6.—At Stone Branch, 20 miles south of here, G. W. Wright and Andrew Childers, mine bosses, became enraged at John Kelley, another boss, assaulted him with clubs and beat him into insensibility. Kelley died 30 minutes later.

The drawing power of an advertisement is gauged by its circulation. If you want to reach the people of Salem and vicinity use The News.

THE DEATH RECORD.

Miss Grace Calvin.

Miss Grace Calvin, the 16-year-old daughter of Mr. and Mrs. T. D. Calvin, died Monday at her home two miles east of Greenford of an attack of diabetes. Miss Calvin took sick Saturday night about 12 o'clock and gradually became worse until death. She is survived by her parents, a sister, Effie, and four brothers, Raymond, Ralph, Emerson and Park.

The funeral will be held at 10 o'clock Wednesday morning from the church at Locust grove, and burial will be in the cemetery there.

JURY EXAMINE BRIDGE

Find Faulty Rail Connection on Thoroughfare Draw.

Atlantic City, Nov. 6.—The theory held by Coroner Gaskill that a misplaced rail caused the Thoroughfare wreck was strengthened when the jury inspected the draw. When the draw was set by the railroad operative the metal top of the casing on the rail jammed and did not go into place and Superintendent Lovell was compelled to knock it in place with a piece of plank. The rail had not jammed sufficiently to have proved dangerous, in the opinion of the railroad men and the jury, as it required only a slight tap to put the cap in place. It lay in such a position that a car wheel would have forced it into place.

After the inspection tests were made to determine the trustworthiness of the eyesight of Daniel Stewart, the aged bridgetender, and it was shown that his eyesight was defective to the extent that he could not see to read without glasses.

An admission that may have bearing upon the question of doing away with drawbridges over the Thoroughfare was made by Joseph F. Richards, chief of maintenance of way for the railroad, when he said before the corner: "The bridge is as good as any in America but all draws are dangerous."

It was shown that at the time the accident occurred the brakes on all three cars had been set.

Kremser Fined.

Theodore Kremser, the East Main street saloonkeeper who was arrested Saturday night for violating the 10 o'clock closing ordinance, appeared in Mayor Carlile's court Tuesday afternoon, pleaded guilty and was fined $25 and costs. He settled.

BRITISH TARS MUTINY

Offensive Order by Snobbish Officer Causes Trouble.

Portsmouth, Eng., Nov. 6.—A mutinous outbreak on the part of 500 to 600 sailors last night necessitated the immediate mobilization of the entire force in the naval barracks here in order to prevent the affair from developing into a serious mutiny.

The men had assembled in the gymnasium when the senior officer, a man of short stature, wishing to administer a reprimand for a breach of discipline, ordered the front ranks to kneel so that he could see the men in the rear. The order was resented and some of the sailors who refused to obey were arrested. Their comrades, aggrieved, ran amuck, wrecked the canteen and other premises, started to break out of barracks with the intention of wrecking the quarters of the obnoxious officer and were only prevented from doing so by the fixed bayonets of an overwhelming force. A number of the men who attempted to break out of barracks were placed under arrest.

IRON COLUMN FALLS

Kills Man in Descent of 60 Feet and Injures Another.

New York, Nov. 6.—An iron column, 40 feet long and weighing eight tons, which had just been placed in position on the second floor of the new Grand Central depot in course of erection at 45th street and Lexington avenue, toppled over and crashed its way through heavy iron girders to the basement, a distance of 60 feet.

In its fall it struck a workman named Patterson, killing him instantly, and seriously injured a second man, who was thrown from a cross girder of the second floor to the floor beneath, a distance of 40 feet. John Statler, foreman, and Johnn Wolff, who was in charge of the crane which caused the accident, were arrested.

GRANITE and MARBLE MONUMENTS

Vaults and all Kinds of Cemetery and Building Work.

Office and Works, 29 Depot Street.

We wish to announce to the public that Mr. Fred Godward has been discharged from our employ. He had no interest in our business, and was never anything more than an agent.

If you were going to buy a monument or headstone, would you not be better satisfied if you could go to a place and select the one you want; see what you are getting, with the knowledge that you are dealing with an honest firm, which has erected thousands of monuments and headstones? We have never had any unfavorable criticism of any kind passed on our work and believe in a square deal for every one.

WE GUARANTEE

Every piece of work we set up, and tell our customers just exactly what they are getting when they contract with us. We do not pay any of our men $35 per month and 20 per cent commission. If we did this we would be compelled to cheat our customers. We do business on a very small margin, but give the very best material and workmanship. That is why our business has been increasing every year. Another thing, we have from one to two hundred monuments and headstones on hand at all times for customers to select from. For further particulars, call on or write to

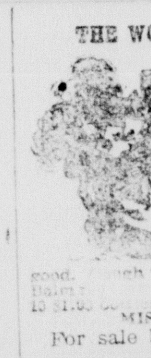
THE WOMAN WHO COUGHED.



Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed *day and night*. The doctors dosed me with opium and quinine. No good. "Cough Cures"? Bah! Then Brazilian Balm [illegible]. Killed every germ. Took 13 $1.00 bottles. Now I'm like a girl of 18.

DECLINE TO RESPOND

Mutual Life Officials Will Not Go to Tennessee.

New York, Nov. 6.—George T. Dexter, vice president of the Mutual Life Insurance company, announced that he would not go to Tennessee in response to the summons of Insurance Commissioner Folk to answer complaints of policyholders that their money was being used in an effort to re-elect the present management of the company.

Mr. Dexter explained that President Peabody was absent, First Vice President McClintock ill, and that the business of the company required his own presence here. He said he would answer any questions which Commissioner Folk might send him or if the commissioner would come here he would appear before him.

Vice President E. R. Perkins of the New York Life Insurance company has been summoned to Tennessee on complaints of a similar nature.

STUYVESANT FISH BEATEN

Control of Illinois Central Captured by Harriman Crowd.

New York, Nov. 6.—From an authoritative source it is learned that at tomorrow's meeting of the board of directors of the Illinois Central Railroad Stuyvesant Fish will not attempt to control the election of president and that the wishes of E. H. Harriman will be carried out. Mr. Fish, it is understood, will contest control of the property at the meeting of stockholders next year.

From the same source it was learned that Mr. Fish probably will be succeeded by J. T. Harahan, vice president of the company. The vote is expected to be 7 to 5. Mr. Fish will continue as a director of the company.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of This Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years a simple and reliable treatment for catarrhal troubles has been found —Hyomei, a combination of healing and germ-killing balsams, that, when breathed through the neat pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health-giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs, drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have ordinary catarrhal symptoms, such as offensive breath, burning pains in the throat, cough, raising of mucous, difficulty in breathing, sneezing, huskiness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

A complete Hyomei outfit costs but $1, extra bottles, if needed, 50 cents, and is sold by Bolger & French and M. S. Hawkins, under an absolute guarantee that it will cure catarrh or money will be refunded.

SUFFRAGISTS JAILED

Feminine Agitators in London Suffer for the Cause.

London, [illegible]—Ten women suffragists, arrested for rioting at the house of commons, were arraigned in a police court and bound over to keep the peace for six months. Such a commonplace outcome of the affair did not meet the views of the suffragists, who desired to be committed to jail as martyrs to the cause. When the magistrate announced his decision a great uproar broke out and ultimately the women had to be removed by force. Some of them were literally thrown out among the crowds waiting outside the building.

The shrieking women continued to make a demonstration outside until Miss Pankhurst, who took a prominent part in the disturbances in the ladies' gallery of the house of commons, in April, was again arrested.

When the disturbances had somewhat subsided the police reassembled the defendants, who were then informed by the magistrate that they must immediately find sureties for their good behavior or be imprisoned for two months. The ten women refused to enter into recognizances and were removed to Holloway jail.

Representative O'Rourke, the Toledo independent in the legislature, makes a statement tending to convict the Democratic schemers under Garber of wanting anything but a really fair investigation of Cincinnati. They asked him to serve on the committee, but actually named some one else after Mr. O'Rourke had accepted with this frank statement: "I shall shield no man, Democrat or Republican. I will also see that the public is given the true facts without favor. If it is found that there has been grafting in public matters, the public shall know the facts, and if, on the other hand, it is shown that there is nothing wrong, then the public shall know that."

Bind Cashier of Bank at Ladd, Ill., and Help Themselves.

LaSalle, Ill., Nov. 6.—The Farmers & Miners bank of Ladd, Ill., was held up and robbed of $7,000. The assistant cashier, J. J. Hurley, was alone in the bank when two men entered and asked for some pennies. The next moment, covering Hurley with revolvers, the men ordered the assistant cashier to throw up his hands.

The robbers then marched Hurley to a back room, where they bound him hand and foot. The robbers then helped themselves to cash and escaped. They left $130 in gold besides a quantity of silver on the bank counter and disturbed little in the vault.

Southern People Hear Once More

Although many remarkable achievements of L. T. Cooper and his medicines have been printed from time to time, none are more startlingly wonderful than his cures of deafness. His phenomenal success seems to have taken New Orleans by storm. Every newspaper in the city is devoting columns to the reports of his work. From the small boy to the bewhiskered grandpa, and from millionaire to pauper, every one has some extraordinary story to relate that is more remarkable than the rest. His headquarters at the American drug store is besieged with callers and a dozen clerks are busy all day long selling the medicines.

One can spend an interesting hour watching the crowds come and go, and listening to the story of his patients, one man, Mr. E Garcia by name, who gave his address as 1448 N. Robertson St., New Orleans, telling his experience was overheard to say, that for six years he was unable to hear without the aid of an ear trumpet, and yet he was apparently having no difficulty in understanding every word spoken to him in an ordinary conversational tone. When asked about the result of the treatment in his case he said: "My hearing had become so poor that I had to give up my position. For the past six years I have not been able to hear without the aid of a trumpet, and of late even then only only when spoken to in a very loud voice. I also suffered from rheumatism, which had partially crippled me, began using Cooper's New Discovery and also his Quick Relief medicine about ten days ago and noticed a slight improvement after the first few days. The rheumatic pains gradually left me and inside of a week I was able to walk almost as well as ever. My hearing has been entirely restored now and all trace of rheumatism has disappeared. I have accepted my old position again and am now working evry day. I consider my case remarkable, as I have tried many remedies without any relief, and could hardly believe that any medicine could effect such results in so short a time if I had not been through it myself."

Miss D. Barkenger, 1026 Magazine St., another caller, related a peculiar experience which, though not as remarkable as that of Mr. Garcia, is worthy of note. She said: "I have been troubled with head noises, buzzing in the ears for some time and have been unable to find anything that would help me. I was hard of hearing; which was a source of much annoyance and embarrassment. Mr. Cooper's New Discovery and Quick Relief medicines have wrought a wonderful change in my condition in one week. The buzzing, roaring noises in my head have entirely ceased, and I can hear everything distinctly. I am more than grateful for my cure, and am only sorry that I did not know of these wonderful medicines long ago."

L. T. Cooper is the man who created a sensation in the East with his medicines, and who, in St. Louis a short time ago, after effecting a number of startling cures, made a personal tour of the slums seeking the worthy poor among whom he distributed a small fortune in money and several carloads of eatables.

His preparations, Cooper's New Discovery and Cooper's Quick Relief, as they are called, have had a phenomenal sale in Salem since their introduction here, and at M. S. Hawkins' drug store it is said that the preparations are proving remarkably successful.

MISSTEP CAUSES FATAL FALL

Prominent Altoona Citizen, Frederick Scheffield, the Victim.

Altoona, Pa., Nov. 5.—Frederick Scheffield, former city treasurer of Altoona, fell down the steps at the Turnverein Singing society and broke his neck.

He died almost instantly. Scheffield's mishap was indirectly due to an accident a year ago, when he walked out of a second-story window at his home while in a nightmare. He broke his ankle, was left a cripple and his fatal mishap was due to his injured ankle. Scheffield, who was born in [illegible] and was 56 years old, was [illegible] elected as the Democratic treasurer of Altoona.

POLITICAL POINTS.

Government ownership of railroads having been repudiated by Roosevelt, Bryan can't claim that the president has stolen his thunder from him.

* * *

It is a wise Ohio Democrat who can name all the varieties of his party in the United States. The various clans have nothing in common but the old party name and free trade.

* * *

All that he can do to help Hughes against Hearst President Roosevelt is doing earnestly, for Hearst's success in New York means his nomination for president by the Democrats, with jealousy and hate as his platform for 1908.

* * *

At the last session of congress the railroad rate law, the employers' liability act and the pure food law were enacted by the Republican party under the initiative of President Roosevelt. These are all most important measures and conceived in the interest of the "plain folks at home." This is a Roosevelt record that should be sustained by the election of the Republican state and congressional candidates who are the bona fide "friends of the President" in Ohio this year.

Young Experimenter Killed.

This Is Worth Remembering.

As no one is immune, every person should remember that Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Bolger & French.

Whaling Schooner Has Bad Luck.

San Francisco, Nov. 5.—The whaling schooner Monterey has arrived from the north and is the first of the fleet to put in an appearance. Early in the cruise smallpox broke out among the crew. Sixteen men, including Capt. Foley, contracted the disease and some of the cases resulted fatally. The vessel's catch was but one whale.

BATTLE OF BALLOTS

Continued from third page

publicans claim the next house by 50, the Democrats claim it by 22.

New York maintains her position in the limelight of public interest, and the campaign there is to be kept up until the last possible moment. Both state committees claim the state for their candidates by large pluralities. Reports from other sections of the country indicate alternately apathy and interest.

The Situation in Ohio.

Columbus, O., Nov. 6.—Interest in local fights and in the contest over the congressional delegation have combined to take attention away from the state tickets, minor offices only being voted for today. Democratic Chairman Garber claims a plurality of 19,000 for his ticket, with gains in the congressmen, while Senator Dick, chairman of the Republican committee, maintains that his party will not only retain all its congressmen but will also keep the Democratic districts won two years ago.

Throughout the state the contest has been over congressmen. The interest in the Republican demand that President Roosevelt be given a Republican congress was intensified when a telegram was given out at Cincinnati in which the president advised his son-in-law, Congressman Longworth, to have printed what Secretary Root had said of him and what he had written to Congressman Watson as a means of showing the president's desire for a Republican house.

The bitterest fight in the state is probably in Hamilton county over the circuit and the common pleas judgeships. The Democrats were aided by the Citizens Municipal party, both having nominated the same judicial ticket, and having united in attacking what they termed "boss-made judges." This attack was aimed at George B. Cox, who announced his retirement as Republican leader after the last election.

Hot Fight in Massachusetts.

Boston, Nov. 6.—The campaign of 1906 in Massachusetts came to an end with no lessening of interest and with the results as much in doubt as at any time since the conflict began. Moran, who began his canvass by saying that he would accept no contribution save from the people, issued a closing statement appealing to the citizens to get out and vote, as he had no campaign fund and must depend upon the "patriotism and earnestness" of the people.

Alburquerque, N. M., Nov. 6.—Indications are that New Mexico will return a majority for joint statehood of from 8,000 to 10,000.

Austin, Tex., Nov. 6.—Every report received tends to show that the voting will be light. Farmers are manifesting little interest in results.

Nashville, Tenn., Nov. 6.—The campaign for governor in Tennessee has been a bitter one between Malcolm R. Patterson (Dem.) and Henry Clay Evans (Rep.), and last night the leaders of both parties were expressing confidence. Republicans also predict a gain of three congressmen in the third, fourth and the eighth districts.

Denver, Nov. 6.—Party leaders are at sea as to the result of the state election, being unable to estimate accurately the vote to be given Judge Ben B. Lindsay and William D. Haywood, respectively Independent and Socialist candidates for governor. In betting odds of 5 to 2 in favor of the Rev. Henry A. Buchtel, Republican candidate for governor, over Alva Adams, Democrat, are given.

Providence, R. I., Nov. 6.—Both parties are claiming victory at the polls today. The fight for the general assembly has been particularly keen this year, owing to the fact that a United States senator is to be chosen to succeed George Peabody Wetmore.

Pennsylvania in Doubt.

Philadelphia, Nov. 6.—The Republican advisory committee gave out a statement saying that Stuart would have 44,000 majority for governor.

Philadelphia, Nov. 6.—"Edwin S. Stuart, will be elected governor of Pennsylvania by at least 50,000 majority," said Chairman of the Republican state committee.

"Lewis Emery, Jr., will be chosen governor of this state by the handsome majority of 100,000," says Chairman Niles of the Lincoln state committee.

These views were given out last night by the chairmen of the respective parties. Aside from the above statements there is absolutely nothing upon which to base a prediction as to the result today, with the exception of the fusion vote in 1905. Berry, the fusion candidate, carried the state in 1905 by nearly 90,000 majority, but the Republican leaders claim that the situation this fall is entirely different. The fusion slogan in that year was "lift the lid," referring to the condition of the state treasury. "The lid was lifted," said State Chairman Andrews, "and all the state monies were found intact; there not being a dollar which had not been properly used."

Congress Is Affected.

The fight for congress has been unusually bitter in the country districts and the fact that there has been fusion in some formerly Democratic districts makes the outcome in these localities very uncertain, with the odds in favor of the fusion candidates as against the regular Republicans.

Personal registration will affect the vote here. There has been a big falling off in some Republican strongholds and the same can be said of the strong Democratic counties. In Berks, for instance, normally Democratic by from 10,000 to 15,000, not more than 60 per cent of the total vote was registered.

Shattered Nerves.

Made Strong and Vigorous by a New Method.

As the strength of the chain equals only the strength of the weakest link, so is the body only as strong as the weakest organ.

The source of all vital energy which operate the organs is contained in and furnished by the nerves, therefore the strength of the organs is equal only to that of the nerves, no more or less.

The nervous system is the storehouse of physical energy.

A well regulated nervous system has in store at all times enough energy for almost any emergency. When the supply becomes low the body is attacked by sickness, which is severe according to the lack of nerve force. The trouble may attack the stomach, liver, kidneys, brain, heart or any organ.

J. Harvey Hutchings, Brancroft, Mich.

The reason that one organ is weak or shows signs of sickness, while the others are strong and healthy, is because the nerves cannot furnish vital energy enough for all and the supply must be curtailed. The neglected organ becomes sick and displays what is commonly called "symptoms," or locates the weak spot.

The organ may be perfect and simply lacks energy to put in into healthy action, as the machine lacks power to put it in motion. New nervous energy must be generated in the nervous system. When this is done the organ becomes healthy and the sick symptoms disappear.

To generate the natural elements necessary to make healthy nerve matter, which is albumin, fat, ozmozone and phosporous, a preparation of nerve food containing these elements must be sustained, and it is in this particular function that Wheeler's Nerve Vitalizer excels, and it is the secret of its success in curing not only nervous diseases, but all diseases caused in any way by nervous weakness. Dr. Wheeler makes no secret of what Wheeler's Nerve Vitalizer is composed of, because he wishes his patients to know how and why they are cured.

Physicians and scientific chemists marvel at the potent power of Wheeler's Nerve Vitalizer that cures absolutely and permanently every form of nervous disease regardless of its name or cause.

J. Harvey Hutchings, Bancroft, Mich., writes as follows: "I wish to state for the benefit of suffering humanity that I have found in Dr. Wheeler's Nerve Vitalizer a veritable boon to those needing a nerve builder. In 1883 I received an injury which resulted in lateral curvature of the spine. After three operations the curvature was straightened, but the weakness was still there and my nervous system was quite badly shattered. For days at a time I was unable to lie down and would go without sleep as long as nature would allow, and then by the use of choral obtain some rest and go on again to live the same thing over again year in and year out. I used every known remedy in materia medica and every nerve medicine, but all with the same effect. I at last tried Wheeler's Nerve Vitalizer and the results have been happy beyond expectation. I can sleep as well as anyone and have gained in flesh from 142 pounds two years ago to 190 pounds now. I know what I am talking about when I say Wheeler's is the best, as I have been selling drugs for the past 20 years and handling medicines for nearly 25 years."

Sold by druggists at $1 per bottle or by express, prepaid, on receipt of price. Write J. W. Brant Co., Albion, Mich., for free book on nervous diseases and proof of cures.

Dairy and Food Commissioner's Report

The Minnesota dairy and food commission's analysis shows that Kennedy's Laxative Honey and Tar and Bee's Laxative Honey and Tar contained opiates and croton oil. Opiates are poisons and croton oil is a violent poisonous purgative. Refuse to accept any but Foley's Honey and Tar in a yellow package. Foley's Honey and Tar contains no opiates or dangerous drugs, and is the best cough and cold cure. Bolger & French.

ALL WATCH NEW YORK

Empire State Is Center of Attention in Conflict That Is Waging.

HEARST IS SURE OF ELECTION

But So Is Hughes, Whose Managers Say Hearst Hasn't Ghost of a Show. Both Candidates Make Final Appeal for Votes.

New York, Nov. —Fair weather and moderate temperature was the forecast for today, when the issue of the most extraordinary gubernatorial campaign in the history of the state will be decided at the polls.

The night-before predictions could not be said to throw any helpful light upon the situation. Republican state headquarters confidently expected a plurality of not less than 200,000 for the ticket, while the managers of the Independence league and Democratic joint campaign anticipated 150,000 votes to spare in Greater New York, to which they added a plurality of 50,000 above the Harlem river.

The political thermometer in Wall street varied during the day from odds of 3½ to 1 on the election of a Republican governor to 5 to 1 and back to 4 to 1, at which figures the greater number of bets on the curb were placed.

In spite of the confidence expressed on both sides none would deny that never before could party lines be less relied upon to deliver the regular vote.

Charles E. Hughes, named by the Republicans, for governor has received the indorsement of many old line Democrats, who objected to the action of the Democratic convention at Buffalo. Senator P. H. McCarren, Democratic leader of the Kings county Democracy, prophesies a Republican plurality of 5,000 in his county.

Up-State Vote Will Decide.

On the other hand William Randolph Hearst, first the candidate of the Independence league and then of the Democratic organization has invaded the up-state strongholds. That he will draw from the Republican vote in certain sections is generally conceded.

The Republicans have always counted upon the up-state counties to roll up a vote to more than offset the Democratic plurality in Greater New York but this year up-state can hardly be described as pitted against the metropolis.

In this city the minor issues are so involved and the candidates so multiple that the official ballot, two million copies of which were delivered by the printers, is literally a blanket sheet. Contrary to the usual practice of candidates, this year's campaigners carried their canvass right up to the early hours of election day. Mr. Hughes spoke along the water front during the afternoon and six times up town last night, closing his canvass with a meeting in Durland's riding academy.

Mr. Hearst contented himself with sending out an appeal to election watchers to be on their guard and last night addressed four gatherings on the Eastside. Both candidates were hailed with the boisterous enthusiasm that has characterized their every appearance.

Police Ready for Work.

Elaborate police arrangements were concluded, inspectors and captains being instructed by Commissioner Bingham and Superintendent of Elections Morgan to insure a fair election at all hazards. The police are armed with no less than 2,000 warrants directed against those who are alleged by the managers to have illegally registered and these men, if they attempt to vote, will be arrested. Those warrants were issued after the investigation of 4,000 complaints. All parties will be represented by counsel in the vicinity of the polls. In this city the counting is sure to be slow.

Inward and Outward.

The inward effects of humors are worse than the outward. They weaken all the organs, inflame the mucous membrane, cause catarrhal troubles and endanger the whole system.

Cured of Bright's Disease.

Mr. Robert O. Burke, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from 12 to 20 times a night, and I was bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders, and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." Bolger & French.

NEGRO STARTS RACE WAR

Resists Arrest and Kills Officer at Wiggins, Miss.

Hattiesburg, Miss., Nov. 6.—Two men were fatally wounded and over 500 shots were fired in a race riot at Wiggins, Miss., 35 miles south of here.

William Smith, a negro, resisted arrest and fired on Marshal Quarrels and Deputy Mitchell, the latter receiving a fatal wound. Smith escaped to his home, barricaded the doors and windows and defied capture until a mob threatened to burn the house. After surrendering he was locked in the village jail. A mob dynamited the jail, fired several volleys into his cell and left him for dead. While the mob was storming the jail a large crowd of negroes came upon the scene and began firing into the ranks of the besiegers. Over 500 shots were exchanged and D. M. Clarke, a white man, was fatally injured. Several negroes are supposed to have been shot but so far the total number of casualties has not been learned. Later Smith was found alive in the jail but his arms had to be amputated.

THERE'S A KNACK.

About Knowing What to Eat, to Get All the Good There Is in Your Food and With the Least Effort.

Why Not Eat Less and Digest All You Eat!

The bodies of elderly people especially are worn and easily tired. They need all the strength they can get.

Their stomachs especially must be saved from doing too much work. Heavy foods should be avoided.

"I can't get along without it."

A food that demands the least amount of work from the stomach is the most nourishing and strengthening of all foods.

Such is Hardyfood.

It is the happiest combination of the most nourished foods in the world, wheat and malted barley.

One need hardly have a stomach to digest Hardyfood, it is so exquisitely nourishing and invigorating.

In making Hardyfood nothing but the life of the grain is used—all the worthless and indigestible portions are cast out.

Hardyfood makes brain-figment, bone, muscle fibre and nerve. It gives the maximum of strength and demands the minimum of digestion.

For old people it renews the strength and vigor of youth, and for the youth it builds a firm foundation for a vigorous frame.

Hardyfood is far superior to bread or biscuits. The very nature of wheat is chemically changed in the oven on account of the yeast and the heat. Hardyfood is the pure, unadulterated pith of the purest cereals.

Throw away your medicines and cure your stomach trouble by letting Hardyfood have full sway in building up your health.

Too many people eat meat and other heavy foods, and of course they digest a very small percentage of them. Why not eat less and digest all you eat? It will strengthen your stomach and put a smile on your face. Try it.

Hardyfood is delicious and appetizing and can be served in many tempting ways.

At all grocers—10 cents.

Well Known Here.

The body of the young man who died Saturday at Leetonia was discovered to be that of Walter Saunders, of West Rayen street, Youngstown. Mr. Saunders was injured a short time ago by falling from a wagon while crossing the railroad tracks at Spring Common. He alighted on the top of his head and was severely hurt. He was taken to the City hospital where his injuries were attended to, and was only discharged from there Thursday. Instead of going home, as was expected, he wandered away, and on Friday was found lying south of Leetonia unconscious, and was removed to the mayor's office, where he died Saturday morning at 9:15 o'clock of pneumonia and an epileptic fit. It was thought that Saunder's mind had become affected as a result of the fall and that he had wandered away and met with another accident.

Mr. Saunders was a member of Logan lodge No. 4, K. of P., and belonged to Gold Leaf lodge, U. R. K. of P. He had lived with his aged mother, from whose home he will be buried. The Knights of Pythias will have charge of the funeral, which will be held tomorrow afternoon from the Oak Hill Avenue A. M. E. church. Rev. P. J. Blackburn will officiate.

Memorial Services.

Memorial services in honor of Bishop B. W. Arnett, were held in the Grant Street A. M. E. church Sunday evening at East Liverpool, and were attended by a large crowd. An appropriate program was rendered, Rev. Dr. Bundy delivering the memorial address.

Teachers' Meeting.

Teachers' meeting will be held this evening at the home of C. E. Burke, at which time all teachers of the A. M. E. Z. Sunday school are requested to be present.

Organized Choir.

Prof. Craig, formerly a leader of the choirs at Winchester, Martinburg, Charlestown, Berrysville, Lynchburg and Wheeling, W. Va., has organized a choir at the A. M. E. Z. church of Alliance. The best talent of that city has been secured, and an effort will be made to put it on a basis with the best choirs in this vicinity.

Stewardesses' Meeting.

A meeting of the stewardesses of the A. M. E. Z. church is called for this evening at the home of Mr. and Mrs. Jesse Ford at 7 o'clock sharp. All are urged to be present at this time.

Moved Household Goods Here.

Rev. H. H. Upthegrove has moved his household goods to this city and will have his study at the home of Miss Cora Lee, McKinley avenue.

Personal.

Mrs. Josephine Beeler and daughter, who have been the guests of Mr. and Mrs. Edward White of Hill street, have returned to their home in Cleveland.

Rev. H. H. Upthegrove left for Canton this morning, where he will attend quarterly meeting, which will be held at the A. M. E. church in that city.

Mr. Samuel Alexander and Mrs. Addie Smith will go to Canton this evening to attend quarterly meeting at the A. M. E. church.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of childbirth can be entirely avoided by the use of **Mother's Friend**, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

ALL WATCH NEW YORK

Continued from sixth page.

In Buffalo and some other up-state cities voting machines will be used and from those places the early returns may be expected. The most astute of political observers are reserving their opinion until some definite idea can be gathered from the early voting. Never before, it is conceded, has there been greater danger to the reputation of the careful prophet in making any positive prediction on the night before election.

Hearst Makes Last Address.

The final word of each standard bearer was a promise to his supporters of a great victory.

Mr. Hearst last night told his audiences he was confident that he would receive a plurality of 200,000 in Greater New York and be elected by about the same figures. Mr. Hearst's final speech of the campaign took the form of replies to questions which he said had been put to him by a New York newspaper. Among the questions and answers were the following:

"In your estimation will you receive a much larger vote in this city than you did last year?"

"I believe I will receive about double the vote in this city that I did last year. The total of Independence leaguers and Democrats last year was over 450,000. The Republican vote was under 150,000. If 50,000 should be transferred from the combined Independence league and Democratic vote to the Republicans we would still have over 200,000 plurality. I am quite confident, therefore, that we will have 200,000 plurality or more in Greater New York."

"Will that vote, together with the vote you will get up-state, elect you?"

"I have never spoken up the state in any place where Hughes had been that we did not have from two to ten or twelve times the number of people that he had. Our audiences were not only much larger but much more enthusiastic. This was true even in the most rock-ribbed Republican counties. I do not believe that the Republicans will carry the up-state counties this year and I believe that we will be elected by the plurality that we receive in Greater New York—by 200,000 or more."

"You have challenged successfully attacks upon your sincerity. Have you destroyed that impression, if it ever existed generally?"

Promises Quick Returns.

"I do not see why anyone should doubt my sincerity, and I do not believe that anyone does. There is no possible reason for my wanting to be governor except one, and that is to accomplish something for the benefit of my fellow citizens and to receive their approval for having accomplished something. I have but one desire and that is to be known as the governor who actually kept his promise and who actually stopped the trusts from robbing people."

"If elected governor, will you endeavor to at once institute the reforms and principles called for by your platform?"

"I shall begin at once, within the first hour after my inauguration. Two years is even too short a time to accomplish what I hope to be able to do, and I certainly shall not waste any of that time."

Mr. Hearst further said that if elected he would continue his fight against the trusts; if Mayor McClellan was shown to have been illegally seated the courts would unseat him and if District Attorney Jerome or any other official, removable by the governor, was incompetent or false to the interests of the people, he would be removed.

AS A DEMOCRAT HE HELPS DEMOCRATS.

Republican members of the labor unions affiliated with the American Federation of Labor are fast finding out that there is nothing but Democratic politics in all of the recent endeavors by Gompers to mix up the federation in his campaign partisanship. None can fail to notice, who give the least care to the matter, that the Gompers attacks are always against Republican candidates, and even for the very things that are overlooked or excused in the Democratic candidates. It is no mere coincidence that this should prove true in scores of cases in all parts of the country. The reason for it becomes plain wherever it becomes known that Gompers is and always has been a Democrat. A lifelong adherent of the free trade party, he is doing Democratic duty in trying to put Democratic free-traders into power, and thus give Roosevelt a hostile congress in the last half of his term.

Republicans remember, too, that it was Gompers who said during the last Democratic trial of free trade that three million American workingmen who could earn no wages in those days were wandering about in vain search for work. They know full well that Democratic success will bring all its train of evil events if Gompers succeeds in what he is trying to do. Until now he has always opposed thrusting the labor cause into party politics, and has fought and is fighting his Socialistic members for seeking to have this done, yet he is now trying to do the very thing that he forbids in them, and would resist in Republicans. He does this, too, for the Democratic party, with all its misfortunes of free trade, for the express purpose of defeating Roosevelt and Republicans, protection and prosperity.

Coming to Salem, Metzger Hotel,
Friday, Nov. 9, *From 9 A. M. to 5 P. M.* *ONE DAY ONLY*

DR. VOKE Chief Examining and Consulting Physician of The France Medical Institute Co., by request, will visit above town on date named. CONSULTATION FREE and STRICTLY CONFIDENTIAL. Governor Dawson of West Virginia Calls Out National Guard.

TROUBLE IN MINGO COUNTY

Mayor and Chief of Police of Williamson Arrested for Interfering With Federal Officers — Further Clashes Feared—Caused by Old Grudge.

Charleston, W. Va., Nov. 6.—On receipt of a complaint that the Democrats of Mingo county had been terrorizing Republican voters, placing negroes on the trains and sending them out of the county, Gov. Dawson has ordered three companies of the national guard to be mobilized at Huntington, ready to move to the scene of the alleged trouble. Deputy United States Marshal Day and Deputy Sheriff A. A. Gaujot are reported to have been thrown into jail at Williamson and bail refused them. United States officers have gone to investigate.

Huntington, W. Va., Nov. 6.—Word from Williamson is that the town is quiet. The militia here is still in the armories awaiting orders to go to Williamson but the prevailing belief now is that their presence will be unnecessary. The city officers arrested for interfering with a United States officer were released on bond. Deputy Marshal Day was also released from the Williamson jail.

The trouble started when Democratic policemen of Williamsen and Republican deputy sheriffs of Mingo county clashed, although no blood was shed. Officers and policemen of Williamson are also in troble with federal officers because of the arrest by policemen of Deputy United States Marshal Day of Welch. Republicans say that his arrest was for political effect because he procured the release of a negro arrested on suspicion of an intent to vote illegally. Williamson officers say that Day was guilty of a statutory offense. Fifteen deputy marshals went to Williamson in charge of Maj. W. H. Lyons and arrested Mayor Pinson, Chief of Police Chaffin and other citizens of Williamson charged with interference with a federal officer.

Charleston, W. Va., Nov. 6.—After an active campaign the Republicans claim four of the five congressional districts. More interest is shown in the fight for the legislature, but the Democrats have so many odds to overcome that the prospects for them are not bright. There has been a lack of interest throughout the state.

STRIKEBREAKERS REBEL

Grow Sick of Their Jobs and Throw Boss Down Stairs.

New York, Nov. 6.—Fifty men employed by the New York Transportation Co. to take the places of their chauffeurs, who went on strike last week, revolted in their quarters in the big garage at 49th street and Eighth avenue, and insisted that they be paid off immediately. Inspector Berry of the company, who tried to argue with the men, was thrown down a flight of stairs and 15 policemen had to go to his rescue.

Finally the men were paid off and furnished the transportation back to their homes which they say they had been promised when they came to this city to fill the places of the striking chauffeurs.

CHICAGO GRAIN MARKET.

Chicago, Nov. 5.—Fresh reports of liberal yields of wheat in the northwest caused moderate weakness today in the local wheat market, the December option closing with a net loss of ½@⅝. ALL THE SPORTING NEWS.

The steady reliability with which The Chicago Record-Herald presents the sporting news of the whole country each day has made it an authority in this field. It has a large staff of editors and reporters to handle the telegraphic matter and gather the local news in this important department alone. In The Sunday Record-Herald this department has a separate supplement of four full pages—a newspaper in itself—in which all the latest sporting news is presented with numerous illustrations. All that is of interest in baseball, football, racing, athletics, automobiling, yachting, golf, tennis, pugilism, aquatics and other sports can always be found here, along with many special articles by experts of national reputation. The Record-Herald is a favorite among lovers of sport because its sporting columns are written by "men who know."

Postmaster Robbed.

G. W. Foust, postmaster at Riverton, Ioda, nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a sever case of jaundice that even my finger nails turned yellow; when my doctor prescribed Electric Bitters; which cured me and have kept me well for eleven years." Sure cure for biliousness, neuralgia, weakness and all stomach, liver, kidney and bladder derangements. A wonderful tonic. At Bolger & French's drug store. 50 cents.

Shoots Babe and Grandmother.

Souderton, Pa., Nov. 6.—Alexander Larson shot his 3-year-old child in the head and three times wounded Mrs. Marguerite Alexander, 80 years old, in attempting to get possession of the child, who had been left in the care of the woman by the mother. The aged woman's injuries are dangerous. Larson was arrested.

Fortunate Missourians.

"When I was a druggist at Livonia, Mo.," writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are all well and strong today. One was trying to sell his property and move to Arizona, but after using the New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest cough and cold cure and throat and lung healer. Guaranteed by Bolger & French, druggists. 50c and $1.
